Useful sources: tutor2u.net/hsc

Equipment List:

- A4 lever arch file
- dividers
- A4 lined paper
- Writing pens and highlighters/coloured pens.

We are pleased to welcome you to the BTEC Level 3 National Extended Certificate in Health and Social Care course starting September. As part of the Health and Social Care course you will learn about human lifespan development and skills and factors that impact service users' quality of life in health and social care settings.

In preparation, I would like you to create a timeline showing the life stages. It should show the life stage, a picture, or photo to demonstrate the life stage (for example, a baby in the infancy life stage) and the main developments that happen during that life stage. Make it eye catching!!

I would also like you to research some of the professionals that work in health and social care. I would like you to find out about the roles of the following professionals, including in what setting they work (for example a hospital).

- GP
- Occupational therapist
- Nurse
- Social worker
- Midwife
- Youth worker
- Care assistant
- Support worker
- Social prescriber
- Speech and language therapist

We very much look forward to meeting you in September. If you have any questions about the task above or the course, please do not hesitate to contact me at Fakenham Sixth Form using the above email address.

Have a great summer!
